Raise the Bar for Travel Risk Management

On the move

As the global footprint of your organization expands, easy access to real-time, global risk information is more vital than ever to help protect operations, corporate travelers, expatriates and domestic employees.

The ActivTravel™ add-on is a comprehensive travel risk management solution combining up-to-the-minute all-hazards alerts with employee travel data, giving you the relevant information you need when you need it for traveler safety.

This convenient, easy-to-use resource gets the individual itineraries you need from your travel management company(s) and gives you and the traveler critical information about hazards which may pose a threat to their safety and security.

Map it

A detailed Situation Map helps you locate active and pending traveler locations and destinations based on the most current flight, ground transportation and hotel itinerary information, all displayed in context with our real-time and regional incident reporting and analysis.

The information you need at your fingertips

Pre-trip advisories are automatically sent to travelers at the time of booking. You can configure them in advance to include the information you want your traveler to know including travel policies, recent security threats, health and safety risks, visa requirements, and more.

ActivTravel™ Powerful Benefits

- Protects the health, safety, and productivity of traveling employees
- Combines travel intelligence, traveler tracking and real-time threat alerts
- Provides a 360° view of your travel risk exposure
- Generates comprehensive travel reports
- Prepares travelers with customized and automated pre-trip advisories
- Delivers targeted alerts to at-risk travelers/their managers
- Enables a confident response when problems arise
- Improves risk visibility and situational awareness
- Personalizes alerting based on incident type, severity, latitude/longitude

Travel alerts are automated and targeted, empowering travel managers to easily communicate relevant threats to active and pending travelers. This translates into meaningful alerts for travelers, increased policy compliance rates, and more time to focus on other responsibilities.

Actionable intelligence and analysis delivered to the right people at the right time.

ActivTravel alerts and notifications can also be configured to align with corporate policies such as destinations and country risk ratings. Travel or security managers can also configure it to send alerts to themselves, the travelers and/or regional managers responsible for traveler safety.

More About NC4

NC4 delivers safety and security solutions for both business and government organizations. We revolutionize how organizations and communities collect, manage, share and disseminate information to reduce cyber threats, fight crime, mitigate risks, and manage incidents. NC4 also provides cyber threat sharing solutions both through secure collaboration services and recently (via Soltra Edge), through automated, structured, and standardized (STIX/TAXII) mechanisms.

NC4 takes a comprehensive and integrated approach to safety and security by providing: cyber threat exchanges that drive the development of a sharing culture and circles of trust; global security and travel intelligence, analysis, traveler tracking, and relevant real time threat alerting to mitigate enterprise risks and a common operating picture for fighting crime and managing emergencies.

To learn more about how NC4 can benefit your organization, visit www.NC4.com or call 877-624-4999 or 310-606-4444.
